See Everything. Know Everything.

Your Workers' Compensation Information *In One Place, & In Real Time*

ATLAS, the Automated Tracking & Live Analytics System, is the intelligence layer across your PayComp suite. It gives you real-time visibility into premiums, payments, program status, and reporting in one dashboard. **No more scattered data across reports, emails, or logins. Everything is live, organized, and instantly accessible.**

What You Can See in ATLAS

✓	Real-Time Premiums	Live workers' comp premium data updated with every payroll run. No estimates, no waiting for month-end reports.
✓	Payment Activity	Full visibility into your ACH premium fund transfers through PayComp Relay™, including transfer status, remittance timing, and settlement confirmation.
✓	Coverage Status	Your workers' comp insurance program details through PayComp CompConnect™ — policy placement, coverage confirmation, and program metrics.
✓	Cross-Platform Reports	Unified reporting and exportable analytics across your entire PayComp account — all in one place, always current.
✓	Role-Based Access	Your team members see exactly what they need. ATLAS supports role-based access so the right people have the right visibility.

Built Around How You Work

 **Spend less time chasing data** and more time focused on running and growing your business.

 **Simplify the complexity of workers' comp** with a dashboard designed for clarity, not confusion.

 **Scale effortlessly** with a system that grows with your business and your needs.
